
Prison Simulator Free Download [FULL]

Jan 10, 2021 Prison Simulator is an action adventure game, published by Baked Games. It was released on May 19, 2016 for Microsoft Windows. Q: How to search for a specific field in firebase? I'm trying to search for a document with a specific field that i'm not sure how to do it? So far this is the result that

I'm getting: So when I click on the search it filters out the "Name" and only shows me the other documents, I only want to show the documents that has "MyName". This is the function that I have already and I have a little idea of how to do it, but not sure how to make it happen

```
function search(userInput) {  
    var email=getEmail();  
    firebase.database().ref('/users/'+userInput+'/').on('value',  
    (snapshot) => { snapshot.forEach(function(data) { var  
        newuser=data.val(); if(newuser.Email==email){  
            newuser.Name.forEach(function(data){  
newuser.Name=data.val() }) console.log(snapshot.val()) } }) });
```

```
} A: If you want to retrieve all users that have the same name,  
then you have to use the equalTo() method. In your case, it  
would be: firebase.database().ref('/users/'+userInput+'/').orderByChild('Name').equalTo(email).on('value', (snapshot) => {  
    snapshot.forEach(function(data) { var newuser=data.val();
```

if(newuser.Name==email
