Thanks for helping us associate the correct driver with your hardware and software. Genetics of human creatine transporter mutations. Creatine transporter deficiency is the most common inherited disorder of creatine metabolism.

More than 40 mutations have been described so far. Most studies have focused on the gene (SLC6A8) encoding the creatine transporter and its transport function. Molecular mechanisms of the disorders have not yet been established. We reviewed the available data on the clinical and molecular picture of creatine transporter deficiency patients and summarized the emerging knowledge on the genetic causes of this disorder. We also highlight our aims for the future. Till

Wurst Aleksandar "Till" Wurst (born 10 February 1991) is a Swedish professional ice hockey player. Playing career Wurst made his Swedish Hockey League debut playing with Modo Hockey during the 2013–14 SHL season. On 16 May 2018, Wurst was signed to a two-year contract extension with
